Customer Continuity
Program

5GL

World's first fifth generation software language PaaS

WORKXPRESS™

WorkXpress Customer Continuity Program

Our 8-Year Old Company Supports Your Continuity

WorkXpress is proud of its business continuity offering to both customers and channel partners. We guarantee data ownership, access to code, control over the host environment and corporate stability and commitment.

WorkXpress is an 8-year old, privately held, revenue generating company that to date has not sought venture capital funding. We're proud to be free to make the decisions that benefit our customers and the quality of our product over the bottom line. What's more, we're positioned as the leading product in the booming platform as a service space (PaaS), which is projected to see significant 5-year growth.

Our product is the world's most functional PaaS without programming. WorkXpress provides better software, faster application deployments and more features than other PaaS competitors and at a lower price point. The platform offers non-programmers the ability to create limitless sophisticated business applications using five building blocks in an intuitive, drag and drop, point-and-click, secure, web-based environment. WorkXpress eliminates the need for coding, data modeling and database querying, while automating common systems administration tasks like maintenance or disaster recovery. These capabilities are all possible without purchase of additional hardware or software.

What Should I Look for in any Software Solution to Ensure my Own Business Continuity?

To ensure of your own business continuity, look for these 5 assurances from any software solutions provider:

1. Will you hold ownership over your data and will it be easily transferable?

2. Does the software provider allow your business to choose the location of hosting for its products?

3. Will you have access to the original source code of all business applications?

4. Will you have access to the platform source code?

5. Do you have confidence in the software provider's longevity?

Compare WorkXpress

Your business continuity is a function of each of the below assurances from your software solutions provider.

	WorkXpress	Platform as a Service	Software as a Service	Custom MS/Oracle	Custom Off-the-shelf
1. Ownership of Data	√	?	?	√	?
2. Choice in Hosting	√	?	X	√	√
3. Access to Application Code	√	?	X	√	X
4. Access to Platform Source Code*	√	?	X	X	X
5. Confidence in Company Longevity	√	?	?	√	?

Chart Key: √ - Offered   X – Not Offered   ? – Varies Based on Company

* WorkXpress offers original platform source code with special agreement.

1. Full access to all data via api's, reports and other methods. Data can be exported in any tabular format required by the exporter. Key fields can easily be defined in exports.

2. All WorkXpress applications can be hosted on the cloud of your choice, including a virtual appliance behind a firewall. In this way, you are not dependent on any particular provider to maintain your application functionality. Hosting may be changed as needed.

3. The five building blocks "code" behind any particular WorkXpress application remains the intellectual property of the creator. Therefore, a customer can elect to have full access to the 5 building blocks "source code".

4. WorkXpress can enter platform source code into escrow, to ensure complete business continuity. *(see above)

5. WorkXpress is privately funded and has been in business since 2002. We are a solid post start-up entity.
