FOR IMMEDIATE RELEASE

June 19, 2009

WorkXpress Signs Collective Intelligence to VAR Partnership Agreement

(Carlisle, PA) — WorkXpress, the world's most functional Platform As A Service (PaaS) without programming, has partnered with Collective Intelligence Incorporated, a value added reseller (VAR), based in Central Pennsylvania. The newly formed partnership provides Collective Intelligence with a full-featured non-programmatic Platform as a Service cloud solution. WorkXpress earns a regional leader in software sales and support to promote and sell its WorkXpress PaaS engine to an entirely new audience of small, medium and large businesses.

Chuck Russell, a Collective Intelligence senior partner said, "We've been following the development of WorkXpress for several years and realized that, with their recent platform release, they're poised for explosive growth. WorkXpress is a first class cloud computing platform that delivers the benefits of PaaS without the overhead and costs associated with traditional programming practices. It enables Collective Intelligence to deliver high quality software at a lower total cost of ownership to our clients."

Collective Intelligence Incorporated is a leading systems integrator and solutions provider delivering cloud based, PaaS to both private sector and government sector clients. Founded in 1999, the company's consultants now serve customers in the Northeast and Mid Atlantic regions of the United States.

Collective Intelligence constructs, integrates and supports mission-critical business applications and systems for both mid market and Fortune 1000 corporations. Their expertise guarantees the successful implementation and deployment of information technologies ranging from cloud computing to enterprise web portals, business intelligence and systems integration. The company's integrated offerings, blended with industry partnerships, best-of-breed tools and mature processes ensure that projects are delivered on time and within budget.

Treff LaPlante, WorkXpress President and CEO said, "The legitimacy Collective Intelligence provides our quality Platform as a Service cannot be bought. These guys have been around for years and have the street credibility in software solutions to deliver WorkXpress to Northeast regional businesses."

About the WorkXpress PaaS

WorkXpress is the world's most functional PaaS (Platform as a Service) without programming. It provides more software and better features at a lower cost than its competitors. The platform offers non-programmers the ability to create limitless sophisticated business applications using five building blocks in an intuitive, drag and drop, point-and-click, secure, web-based environment. WorkXpress eliminates the need for coding, data modeling and database querying, while automating common systems administration tasks like maintenance or disaster recovery. These capabilities are all possible without purchase of additional hardware or software.

Additionally, WorkXpress offers full integrations with other applications and the latest web-based technologies; some examples include Skype, FedEx, Google Maps, currency conversions, Google language translation, FTP services, IMAP email services, and many more. New integrations can also be easily created on the WorkXpress platform.

About WorkXpress

WorkXpress, formerly Express Dynamics LLC, is an innovative business software solutions provider located in Carlisle, Pennsylvania. Its founders are veterans of the software industry who believe that there is a better way to deliver customized software to businesses. With WorkXpress, IT personnel can effectively provide more value to their organizations on a smaller budget.
